

Seattle Mayoral Candidate Questionnaire on Housing and Homelessness, Summer 2017

Prepared By: [Solid Ground](#) and [Seattle University's Project on Family Homelessness](#), in partnership with [Housing Development Consortium](#) and [Seattle-King County Coalition on Homelessness](#)

Dear Candidate,

Thank you very much for responding to this questionnaire!

We are a non-partisan partnership of housing and homelessness providers and advocacy organizations with a combined substantial presence in Seattle. We will use your responses as part of an online **Voters' Guide on Housing and Homelessness**, which we'll publish to coincide with ballots arriving in mailboxes in mid- to late July.

Because we all are from 501(c)(3) organizations, we are unable to make endorsements; but we will share the questionnaire results with thousands of people interested in housing and homelessness.

Please complete and email this form in Word or PDF format to Catherine Hinrichsen, Seattle University, at hinrichc@seattleu.edu by **5 p.m. Thursday, July 13**, if you would like to be included in the Voters' Guide.

- If you send it as a pdf, please ensure your links are live.
- Please either attach a photo or indicate you give us permission to use a photo from your campaign website.

Please direct any questions to Catherine. Thank you!

*In addition, please save the date: We will invite the candidates who advance to the general election to a **Seattle Mayoral Candidate Forum on Housing and Homelessness¹, Tuesday evening, Sept. 12** (tentative) at Seattle University. More details will come after the primary.*

Questions begin on the next page.

¹ We decided to cancel the forum previously scheduled for July 12 after counsel advised us we would need to invite all 21 candidates, per IRS regulations for 501(c)(3) organizations. We determined that a discussion with up to 21 candidates would not be productive. We are distributing this questionnaire instead.

There are seven questions. You may choose to skip a question; if so, please indicate that you choose not to answer. Please limit your answers to 150 words each (about 1,000 characters, including spaces).

Question 1. King County and the City of Seattle have recognized that the crises of affordability and homelessness are complex, regional issues that require regional solutions, exacerbated by the threat of potential drastic HUD funding cuts. If elected, how would you work with other regional leaders and the state and federal governments to identify, enact and implement innovative, forward-thinking solutions to decrease homelessness and increase affordability?

Please answer here, limit 150 words.

Question 2. What is your position on the policies contained in the Housing Affordability and Livability Agenda (HALA)? What do you agree with? Disagree?

Please answer here, limit 150 words.

Question 3. How would you balance the disagreement and anger expressed by some neighborhood residents towards increased density and affordable homes in specific areas of the city, with our unprecedented growth and need for increased housing options that must be shared equitably across the city?

Please answer here, limit 150 words.

Question 4. Did you vote for the Seattle Housing Levy in 2016? Why or why not? What kind of funding mechanism do you believe is best to generate money for housing and homelessness services?

Please answer here, limit 150 words.

Question 5. Given that half the residents of Seattle are renters, what tenant protections -- above and beyond what the city has already done -- would you push to enact to ensure that potential tenants are being treated equitably?

Please answer here, limit 150 words.

Question 6. Virtually every city in Washington has responded to the growing homelessness crisis by criminalizing behaviors such as sitting, lying or sleeping in public. If elected, (a) will you work to repeal and/or mitigate the impacts of ordinances that criminalize homelessness in Seattle, and (b) will you oppose attempts to introduce such ordinances?

Please answer here, limit 150 words.

Question 7. The recent tragic killing of Charleena Lyles highlights the issues of police accountability and the intersecting systems of care in our community whose failures led to her death, including housing, mental health, child welfare, justice and more. How would you address the failure of these systems to work together?

Please answer here, limit 150 words.
